

Reference Information for the Neuropsychologist – ADHD/ADD

(Updated 01/29/2020)

The responsibility of the neuropsychologist is to identify any neurocognitive deficit/impairment that has aeromedical significance. Attention-Deficit/Hyperactivity Disorder (ADHD), formerly called Attention Deficit Disorder (ADD), is a condition that may be aeromedically disqualifying. **For reference information and comments on specific tests**, authorized professionals should use the portal at [FAA Neuropsychology Testing Specifications](#). For access to the portal, email a request to 9-amc-aam-NPTesting@faa.gov.
